The Columbus (Ga.) Sun reports that the iron-works of that city have perfected machines by which a superior quality of ice, in quantities limited only by the capacity of the apparatus, can be manufactured at a cost ranging from 75 cents to \$2 per ton-the latter being the maximum. "The Columbus process" claims to be an improvement upon every other, in point of economy and durability of its apparatus, and in the inexpensiveness, rapidity, and simplicity of the operation. Distilled water was used, and the ice is, therefore, purer than that cut from standing ponds. The machines are being built with a capacity of from 1,000 to 2,000 pounds per day, and at prices ranging from \$6,000 to \$20,000. They can be used in the winter at less expense than the cost of cutting and storing ice by the ordinary process, and are as advantageous in northern as southern latitudes. When artificial ice was first produced, in France, it cost \$110 per ton, or 51 cents per pound. The process patented in Europe, in 1850, by Prof. Twining, of Ohio, manufactured 6.000 pounds of ice per day, at a cost of \$10 per ton, or 1 cent per pound.

A LITTLE DISPUTE.

Messrs, Saylor and Ward, of the Sub-Committee of the Congressional Investigating Committee, completed their labors at Little Rock, Ark., July 28. Just before adjournment Gov. Baxter was on the stand, when he stated that some disreputable proposals had been made to him by Asa Hodges, member of Congress from the First District. The Governor made a remark to this effect, when Hodges, who was standing by, said, "That's a lie."

Baxter-"You are another." [Everybody rising to their feet.

Hodges-"I say it's a lie." [Great confusion.

Baxter-" You are another." [General confusion.

Mr. Ward-"Gentlemen, you must stop this. The committee will listen to no such proceedings. We have not come here to investigate private quarrels."

Matters then quieted down, and the committee adjourned.

JUST TAKEN HIS BITTERS. - We heard a seedy-looking individual with an alarmingly red nose remark to a brother soaker that he had "just had his bitters, but he did not mind taking in-other nip." His remark suggested a train of reflection. How was it, we asked ourselves, that the word "bitters" had grown to be a synonym for gin, whisky, rum, and other alcoholic stimulants, to which it was applied indiscriminately? Bitters, we reasonad, suggested the idea of a healthful tonic, not of a poisonous stimulant; something invigorating to the system, not an alcoholic irritant, full of fusel oil, producing present intoxication and ultimate insanity, idiocy, or premature death. Moreover, our idea of bitters was totally irreconcilable with "gin cock-tails," "rum punches," and "brandy smashes," which, we are informed, are sweetened with sugar, and rendered doubly injurious with essences colored by means of mineral poison. This was bitter-sweet with a vengeance. We mentioned this problem to a friend. He solved it by exclaiming: "Why, don't you know that most of these bitters advertised as remedies are only drams in disguise? Topers know it, if you do not. I must make one exception, however," he added, "and that's Dr. Walker's California Vinegar Bir-TERS; there isn't a particle of alcohol or fermented liquor init, and it is the best vegetable tonic and alterative in Amir

The Best Sewing Machine.

The best sewing machine for all purposes made is, beyond question, the Remington. It will do a greater variety of work, with less noise and physical exertion, than any in the market. A Mammoth Dispensary. [From the St. Louis Republican.]

"Among the notable physicians of this country, Dr. R. V. Pierce, of Buffalo, N. Y., stands deservedly high. He has obtained professional eminence through strictly legitimate means, and fully deserves the enviable reputation which he enjoys. A thorough and careful preparation for his calling and exten-sive reading, during a long and unusually large practice, have made him extraordinarily large practice, have usade him extraordinarily successful in his private practice, and gained the commendation even of his professional brethren. By devoting his attention mainly to certain specialties he has been rewarded in a very great degree, and in these lines is recognized as a leader. Not a few of his preparations compounded for these special cases have been adopted and are used in their private practice by physicians throughout the country, and his pamphlets and larger works upon these subjects have been velcomed as valuable additions to medical literature, and placed among the regular text-books of many country, and his pamphlets and larger works upon these subjects have been welcomed as valuable additions to medical literature, and placed among the regular text-books of many medical schools. Acknowledgment of the services which he has performed for medical science has been made by presentations of degrees from two of the first medical institutions of the land, and by the translation of several of his works into German, Spanish and other foreign languages. The increasing demand for his specifics some time since necessitated the opening of a regular dispensary for their preparation, and from a small beginning the business of this establishment has now grown to mammoth proportions. Thus during the three months ending March 31, 1874, the sum expended for postage alone, not to speak of that paid on newspapers, amounted to \$2,080.70. Over a hundred persons are employed in the various departments, and a corps of able and skilled physicians are retained as an advisory board in difficult cases. Elsewhere in to-day's Republican a whole page is devoted to a communication from Dr. Pierce, setting forth something of the history and details of this vast establishment, which will be found not uninteresting reading."

If you would patronize Medicines, scientifically prepared by a skilled Physician and Chemist—use Dr. Pierce's Family Medicines. Golden Medical Discovery is nutritious, tonic, alterative, or blood cleansing, and an unequaled compt remedy; Pleasant Purgative Pellets, scarcely larger than mustard seed, constitute an agreeable and reliable physic; Favorite Prescription—au unequaled remedy for debilitated females; Extract of Smart-Weed—a magical remedy for Pain, Bowel Complaints, and an unequaled Liniment for both human and horse flesh; while his Dr. Sage's Catarrh Remedy is known the world over as the greatest specific for Catarrh and "Cold in Head," ever given to the public.

When men are congregated in large numbers in the neighborhood of swamps and rivers, Wil-hoft's Tonic will prove a valuable addition to the stock of medicines, and will amply reward the company in the saving of time, labor and money. GO TO RIVERSIDE Water Cure. Hamilton, Ill.

The Ladies' Sorosis Club, of New York, recently changed their discussion from Woman's Suffrage to Hair preparations and Pimple Banish-ers. They declared that where nature had not endowed them with beauty, it was their right-yea, their duty-to seek it where they could. So they all voted that Magnolia Halm overcame Sall-wness, Rough Skin and Ring Marks, and gave to the complexion a most distingue (Sorosian) and mar-ble-like appearance (daogerous to men, no doubt); and that Lyon's Kathairon made the hair grow thick, soft and awful pretty, and, moreover, pre-vented it from turning gray. If the proprietors of these articles did not send the sisters an invoice. they are not smart.

Not Quite So Fast, Mr. Jones!-A horse doctor in Philadelphia was caught changing the celebrated Mexican Mustang Liniment into other bottles and using it as his own recipe. Honesty is always the best policy. These medicine-men like to follow up such fellows. It cured the lame horse all the same; but it damaged the Doctor's reputa tion, and benefited the proprietor in proportion. We have heard of so many Rheumatic persons and lame horses being cured by the Mustang Limiment that we advise every housekeeper, liveryman and planter to invest in a 50-cent or a \$1.00 bottle. against accident. Beware of counterfeits. It is wrapped in a steel engraving, signed "G. W Westbrook, Chemist."

The Grand Revolution IN MEDICAL TREAT-MENT, which was commenced in 1800, is still in progress. Nothing can stop it, for it is founded on the principle, now universally acknowledged, that physical vigor is the most formidable autagonist of all human silments, and experience has shown that PLANTATION BITTERS is a peerless invigorant, as well as the best possible safeguard against epidemic diseases.
